

WSO Field Trip - *Literature in Development*

An SMR Fellowship Activity

WHO: Members of the Strengthening My Recovery meeting with a curiosity about the ACA World Service Organization and considering another level of service.

WHAT: We will be joining the monthly meeting of the Literature in Development Committee

WHEN: On Saturday, January 28th, from 12 noon to 1:30, Eastern US

WHERE: On Zoom - Zoom ID: 863 2773 9558, Passcode 321456

WHY: Among other projects, this Committee is leading the revision of the ACA Affirmations, a piece of literature that is foundational to our meeting. Additionally, we will begin to experience the world of WSO Committees, and consider the opportunities available for volunteering.

HOW: It's simple - just dial in, a few minutes before the meeting begins! For more information you may explore their webpage at: <https://acawso.org/lit-development/>. While on their webpage, we are asked to fill out a form indicating our intention to join the meeting - please do.

Hello Friends -

This is so exciting! Our first ever WSO Field Trip, which will be a new experience for us all. The Subcommittee which we will be visiting is somewhere in the process of revising the ACA Affirmations. We may be able to offer our experience, strength and hope. And this may be the same committee that asked for feedback on the proposed changes to the Bill of Rights. Opportunity abounds.

Of course, we will be attending a business-like meeting, assumedly with an agenda and such. And I am understanding that the group has some technical business to attend to first, so... hey... we'll see. We will certainly learn something.

Bring a snack, perhaps a drink, and join me on an adventure. If we'd like we could meet sometime in the days after to talk about the experience.

Excitedly,

Jim R

(By the way - just filled out the form saying that I intend to attend the Jan 28th meeting. It was easy!)
